

Building and Employment Databases Project Overview

June 22, 2010

Outline

- **Project Background**
- **Why is this Important?**
- **Project Overview**

Project Background

Why are we doing this project?

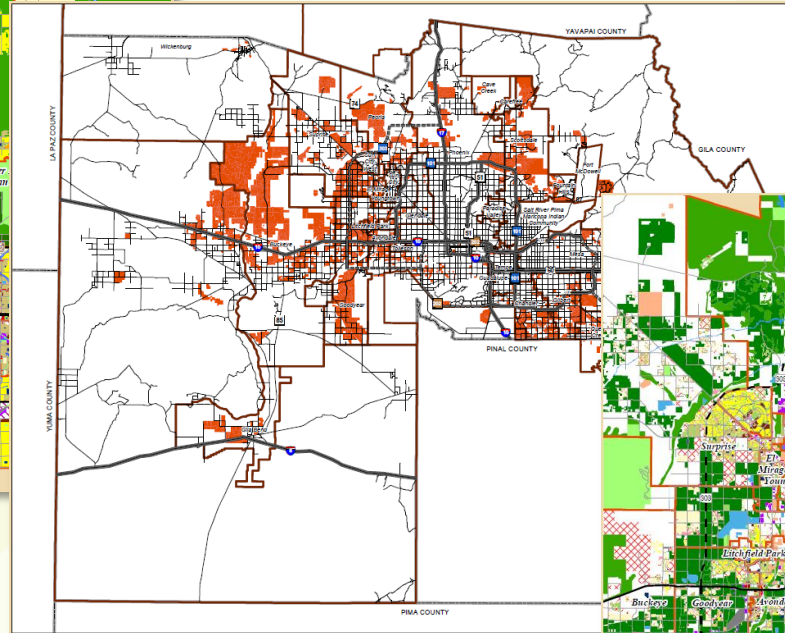

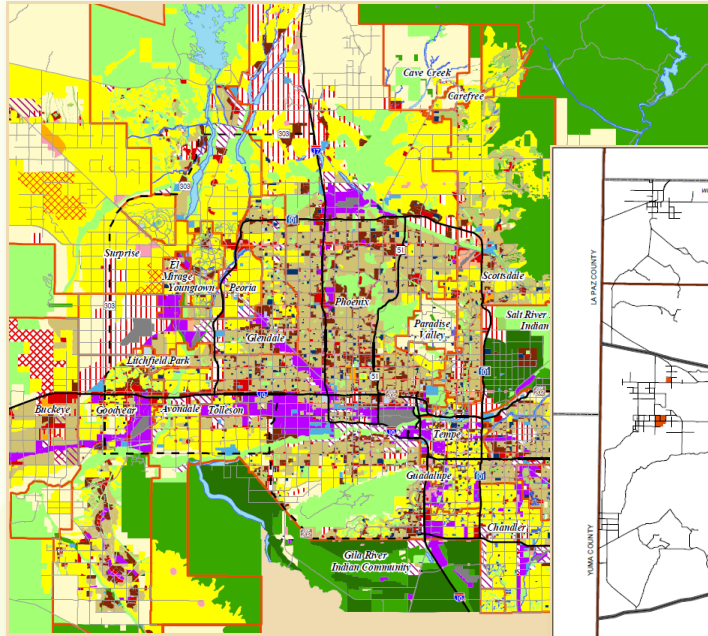

Official Projections

- **Prepared every 5 years or as needed**
- **40+ Variables Projected**
- **MAG Committee Approval**
 - Population Technical Advisory Committee (POPTAC)
 - Management Committee
 - Regional Council
- **Modeling Input for:**
 - Transportation
 - Air Quality
 - Regional Planning

Composite Data Maintained by MAG

■ **General Plans**

■ **Developments**

■ **Existing Land Use**

Composite Data Maintained by MAG

■ MAG Geography

■ Residential Completions

■ Employers and Employment

Data Collected by MAG

Examples of Other data purchased/collected:

- Commercial permits
- Foreclosure data
- Sales data
- Built space information
- Street centerlines
- Many census products, including:
 - Decennial Census
 - American Community Survey
 - Federal-State Cooperative for Population Estimates (FSCPE)

Need for Enhanced Datasets

- **Implementing Highly Disaggregate Models**
 - AZ-SMART based on UrbanSim/OPUS Framework
- **Parcel-based Data Needs**
 - Built Space
 - Business and Jobs
 - Residents
- **Internally Consistent Datasets**

Why is this Important?

How will this benefit MAG and Member Agencies?

Census provides data by Place of Residence

**Our need is
by Place of
Work**

- **Top-down approach**
- **Inconsistent with:**
 - Trip Reduction Program
 - Harris InfoSource
 - QCEW (ES-202)

New Approach

- **Bottom-up approach**
- **Improved Data Linkages**

Project Overview

What will this project accomplish?

New Employment-Related Databases

- **Building and Landmark Inventory (BLI)**
- **Multiple Location Employers (MLE)**

Examples of BLI and MLE

BLI

- **Major Buildings**
- **Landmarks**
- **May have subcategories**
- **Spatial Link**

MLE

- **Employers with Multiple locations**
- **May have subcategories**
- **Specific Professions**
- **Spatial Link**

BLI Examples

- **Malls**
- **Cemetaries**
- **Hospitals**
- **Airports**
- **Faith-based Locations**
- **Golf Courses**
- **Public Buildings**
- **Stadiums/Arenas**

MLE Examples

- **Car Dealers**
- **Supermarkets**
- **Banks**
- **Restaurants**
- **Pharmacies**
- **Realtors**
- **Dentists**
- **Hairdressers**

Application

- **Method to Evaluate Databases**
- **Predict Employment**
 - NAICS Code
 - Number of Firms
 - Number of Employees

Predictions Based On

- **Location**
- **General Plan**
- **Size of Parcel**
- **Land Use**

Next Steps

- **Eval Team Recommendation**
- **MAG Approval Process**
- **12 Month Schedule**

Questions?
